

forMalta

FORMALTA is a company belonging to FMTS Group, leader in the European Project Management sector.

For the last few years, we have been focusing our activities on the Erasmus+ Programme and its opportunities to promote the Mobility of Individuals. We have implemented a complex system that allows us to plan and manage all the activities related to transnational mobility projects, and to monitor, promote, evaluate and follow-up the learning process abroad, ensuring that each initiative reaches a high impact at local, European and international level. Furthermore, FMTS Group supports the European Commission in the implementation of Pilot initiatives related to Mobility of Apprentices and to the creation of a

VET Mobility Scheme for Africa. Erasmus+ is the EU's Programme that supports Education, Training, Youth and Sport in Europe for a 7-year period (2021-2027). The aim of Erasmus+ is to contribute to the European policies for growth, jobs, social equity and inclusion, as well as to integrate EU's strategic framework for Education and Training. Under the Erasmus+ Programme, the core of our activities is the development of Erasmus accreditation in the fields of vocational education and training, and school education; Strategic Partnership for School Exchanges.

Here at FORMALTA, we specialise in connecting educational, not for profit and commercial organisations with EU funds for educational, vocational and training purposes with particular specialisation of the Erasmus Plus Programme.

As for transnational mobility we are specialised in Outgoing and Incoming European Mobility Projects and all the related services. We send and host students, school staff, trainees and apprentices coming from all over Europe for internships from 2 weeks up to 6 months. Mobility projects are comprised of organizations and schools from diverse and thriving sectors, such as: tourism, hospitality, agribusiness, textile and clothing, marketing and communication, ICT, mechanics and robotics, automotive and aerospace, green economy and social innovation. We arrange professional training courses for young people and adults looking to acquire new abilities and competencies to improve their integration in the labour market; our expert mentors will help you and guide you through the process.

Our unique feature is the employment of a non-formal education system (NFE) which is characterised by intense cultural exchanges and creative activities with the main purpose of helping the participants to be successfully integrated in the country and city of destination.

FORMALTA has been working for many years in the learning/training sector; professional orientation; personal research and selection; internships; needs analysis; skills assessments as well as supply and demand matching. FORMALTA is involved in both Outgoing and Incoming mobility projects in Malta.

For the Outgoing Mobility projects, we help organizations and schools to participate in fully funded exchange programmes for education and training purposes.

For the Outgoing Mobility projects, we help organisations and schools to participate in fully funded exchange programmes for education and training purposes. For the Incoming Mobility Projects from other European countries, FORMALTA as the host organisation, receives the trainees for the placement activities, strictly adhering to the principles laid down by the European Quality Charter for Mobility and supports public and private bodies in activities related to:

Once the projects are approved, we support organisations and schools in matters regarding to:

Education is the passport for the future for tomorrow
belongs to those who prepare for it today!

MALCOLM X

Continuous learning is the process of learning new skills and knowledge on an on-going basis. That is why we offer very specialized and tailor - made structured courses suitable for your professional growth. Here you find a brief preview of the lesson plans created by our partners.

English Language Academy 151 Triq Edgar Bernard, Il-Gżira

At ELA, the highly trained academic teachers prepare communicative lessons which merge grammar, vocabulary, and pronunciation with activities based on real-life situations and the use of practical language in an open setting. This kind of approach ensures that the learners are given the structure and framework they need to then practise using the language in ways that will prepare them fully for life outside of the classroom. ELA is continuously adapting as classroom dynamics change, recognising individual as well as collective learning needs, and careful lesson planning accounts for the different learning styles, personalities and knowledge of the foreign learners in the class.

At ELA, you will follow an english course aimed at teachers who would like to improve their communication skills, accuracy and fluency of the English language! This course is perfect if you wish to develop your Listening, Reading, Writing and Speaking skills. An intensive 20h-course will definitely improve your skills!

ELA offers a very detailed course on CLIL, that is Content and Language Integrated Learning. CLIL is a fast, fun, and effective way of teaching English through specific subjects such as science, history, mathematics and more, with dual-focused aims of learning the subject-specific content while also studying the English language.

Moreover, ELA also offers a specific programme for job shadowing activities, during which you will observe foreign teachers' teaching methods. The course is based on the main aspects of CLIL:

- Improved international cooperation and development in education;
- Ability to create materials with CLIL guiding principles;
- Discuss ways of motivating learners in language classrooms;
- Improve English Language skills;
- Explore ways in which learners' achievements can be tested and assessed.

ACLASS Academy of English 11, Suffolk Road, Pembroke, Pbk 1901

ACLASS General and Intensive English Courses follow the guidelines set out by the Common European Framework for languages and are designed to give you a solid introduction to the English language. Highly experienced, qualified English teachers and academic staff ensure a communicative approach to language learning, encouraging plenty of speaking during the lessons, pair-work and group work activities. Lessons focus on the four key skills; Speaking, Listening, Reading and Writing as well as specific vocabulary building activities appropriate for your level.

Teachers are well equipped to ensure that you learn at an appropriate pace and level.

Aclass has a wonderful school environment, bright airy classrooms with interactive whiteboards, private grounds and highly trained academic staff.

Aclass offers specific courses based on your needs, such as Business English and CLIL.

Teacher Training Courses CLIL Methodology

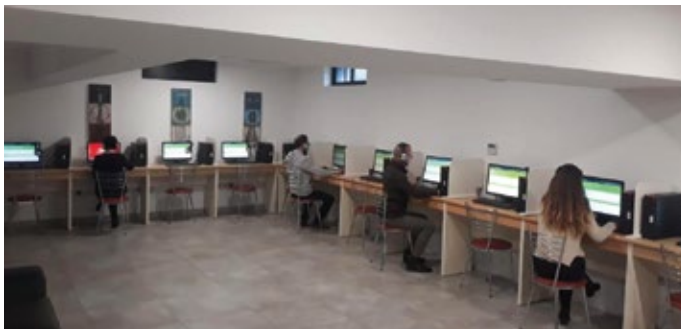

This training course covers language and cultural preparation, classroom observations, microteaching of peers with the use of innovative teaching methods and approaches;

- Increased knowledge of methodology and a framework for planning CLIL lessons;
- Review practical, useful and memorable techniques for practical classroom application;
- Deeper understanding of CLIL and its implications for teachers and learners.

The core of the Erasmus+ staff projects is that you are able to learn from foreign cultures and teachers. Job shadowing is a useful way to learn new and innovative methods of teaching through a continuous comparison your foreign colleagues. These are the schools which are enthusiastic to have you there by their sides.

English Language Academy 151 Triq Edgar Bernard, Il-Gżira

Our partner, the English Language Academy, offers a specific programme for job shadowing activities, during which you will observe foreign teachers' teaching methods. You will be able to witness teachers in their own classroom and students. This experience is one of the greatest means of reciprocal learning and exchange of methodologies and content.

We can count on a wide range of companies providing internships lasting from 2 to 6 months in different sectors, such as: Tourism, Hospitality, Food and wine sector, Agri – business, IT, Mechanics, Electronics, Chemistry, Administration Finance and Marketing, Fashion, Health and care sector, Associations and so on.
