

Games Animation

Game Design & Development

Campus: Rotherham College

Code: RFECD001a

Type: Full Time | Part Time

About This Course

The United Kingdom has a rich history of producing world-class video games with globally renowned companies such as Rockstar, Rare and Bullfrog Productions, to local and regional influential studios emerging with prominence, such as Sumo Digital and BGI all having significant contributions to the global gaming industry. The UK's games industry makes a significant contribution to the country's economy. The sector's annual worth exceeds £4 billion, highlighting its economic importance.

The UK gaming sector is thriving, with over 2,000 active games companies operating in the country. These companies span across all sizes and scales, ranging from small indie studios to large AAA developers. The national sector always requires skilled artists and developers in game development, including programming, art, design, and audio, extending across the full spectrum of games technologies and platforms, encompassing mobile, PC, and console gaming.

The industry is not only focused on established platforms but also embracing emerging technologies. Virtual Reality (VR), Augmented Reality (AR), Esports, and Artificial Intelligence (AI) are fast-developing sectors that UK game developers are actively exploring. These technologies offer new and exciting possibilities for immersive gameplay experiences and innovative gameplay mechanics.

The demand for gaming continues to grow, with ongoing enthusiasm among gamers for the latest technology. This strong demand indicates a promising future for the gaming industry. As technology advances and new platforms and experiences emerge, the UK game development sector is well-positioned to capitalise on these opportunities and continue its legacy of producing world-class games.

What Will I Study?

Within Games Design and Development, we offer different digital and traditional specialist courses including:

- 2D and 3D games engines
- 2D and 3D animation
- 2D and 3D modelling
