

English and Maths

Employability Skills

Campus: Rotherham College

Code: R19SP02

Level: 1

About This Course

This programme is designed for young learners who are working at a too high level for a route 2 or steps programme but need a transition year between vocational courses.

This is an ideal transition year between level 2 and 3, providing confidence and essential skills to prepare them for the next level.

While completing this programme, learners will develop the knowledge, understanding and essential skills employers look for in employees.

These range from familiar 'key skills' such as team working, independent learning and problem solving, to more tricky-to-measure skills such as:

- an appreciation for appropriate behaviour and dress
- appropriate interpersonal skills
- communicating with professional colleagues/peers and/or hierarchical seniors
- supporting other aspiring employee's personal manners and department
- understanding work practices and how different roles and departments function within an organisation

Learners will also study English and Maths that they have not already gained to progress onto a Level 3 qualification. Study skills and academic writing will also be part of the programme.

What Will I Study?

You will study a range of topics alongside English and Maths if you don't have them including:

- Team Working
- Problem Solving
- Employability skills and behaviours.

Why Study Here?

- Learn from industry experience and well qualified vocational tutors
- Take part in cross college events
- Hear from a range of guest speakers
- Support with future training or employment

Entry Requirements

Learners who are considered NEET (not in education employment or training) or those who are unsure of their career options.
