

Construction

Construction Multiskills

Campus: Dearne Valley College

Code: D07SP03

Level: 1

About This Course

This course is designed for students with particular interests in developing a range of construction trade skills specific to local skills shortages and employer demands.

This qualification will allow you to gain knowledge, develop technical and transferable skills in preparation for a role as a Multi-Skilled Tradesperson.

The Multi Skills course offers an opportunity to study multiple trades such as carpentry, bricklaying, plastering and tiling.

You will gain knowledge and practical construction skills through a series of well planned classroom based and practical based sessions, exploring health and safety regulations and best practices on the construction site. Following safety protocols to prevent accidents and promote a secure working environment, organising materials tools and equipment for specific tasks .

What Will I Study?

Students will develop knowledge skills and behaviours studying the following:

- Health and Safety in Construction
- Practical Construction Skills
- Environmental Awareness and Sustainability in Construction
- Bricklaying
- Plastering
- Carpentry
- Tiling
- Knowledge of construction technology

Why Study Here?

You will learn from passionate industry experienced tutors that make learning energetic and rewarding in state-of-the-art workshops.

Work experience will develop knowledge gaps of working as a team. Independent thinking, reflective practice, communication, customer care, problem solving organisation skills will be provided.

Enrichment activities are planned to provide a holistic approach to ensuring you have the opportunity for personal and professional development.
