Animal Care and Land-based Industries

HNC Animal Behaviour and Welfare

Campus: University Centre Rotherham
Code: D10HE02
Type: Full Time

The HNC Animal Behaviour and Welfare is ideal for learners who are passionate about animal care, behaviour, welfare, and conservation, and who wish to develop the practical and academic skills needed for employment or progression to higher education within the animal sector.This course provides a strong foundation in animal welfare, behaviour, husbandry, anatomy and physiology, nutrition, and conservation. You will explore how animals interact with their environments and society, while gaining an understanding of ethical animal management and welfare standards across a range of species.Throughout the programme, you will develop both theoretical knowledge and practical experience through hands-on activities within animal management settings. The course also supports the development of transferable skills including communication, teamwork, research, problem-solving, and professional practice.The HNC qualification is suitable for learners progressing from Level 3 study or those already working within the animal industry who wish to enhance their knowledge and career opportunities. Successful completion can support progression into employment or further higher education study within animal-related disciplines.

Why Study With Us?

Practical, Industry-Relevant Learning
At Dearne Valley College, you will gain hands-on experience working with a wide range of domesticated and exotic animals within our specialist Animal Management Centre. Practical learning is embedded throughout the course to prepare you for real industry environments.

Specialist Facilities
Our facilities include specialist animal housing, enrichment areas, and practical learning spaces that support the study of animal welfare, behaviour, husbandry, and conservation.
Expert Tutors
You will be taught by experienced tutors with higher education qualifications and industry experience in animal management, welfare, and behavioural sciences. Their knowledge and support will help you develop both academically and professionally.

Career and Higher Education Progression
The HNC provides a recognised higher education qualification that can support progression into employment or further study such as HNDs, foundation degrees, or full honours degrees in animal-related subjects.
Supportive Learning Environment

We provide personalised support and guidance to help all learners succeed, develop confidence, and achieve their academic and career goals.
